

Declaration 4**Surfactants in de-inking chemicals**

Producer/Supplier:

Product name:

Area of application:

Is the surfactant:

Ultimately biodegradable according to OECD 302 A-C (or equivalent ISO standard)? **Yes** **No**

The percentage degradation (including adsorption) within 28 days shall be at least 70% for 302 A and B, and at least 60% for 302 C.

Please give a description of the test methods used.

The test results shall be provided in a safety data sheet or in a test report presented by the supplier.

Have alkylphenol ethoxylates or other alkylphenol derivatives been actively added to the product? **Yes** **No**

If yes, which agents:

- 1) _____
- 2) _____
- 3) _____

Alkylphenol derivatives are defined as substances that release alkylphenols during degradation.
