UPM-Kymmene Corporation/Alti

UPM is committed to comply with the EU Deforestation Regulation (EUDR)

As per the amendment regarding the date of application of the Regulation (EU) 2023/1115 on Deforestation-free Products (EUDR) enters into application on 30 December 2025.

UPM Group and its businesses (hereafter UPM) undertake to comply with the requirements of the Regulation starting from the date when the Regulation enters into application at the latest. From thereon, at the latest, the products falling under the scope of the Regulation that UPM places or makes available on the EU market or exports from the EU market will be covered by a due diligence statement and UPM will provide to its customers information required by Article 4 of the Regulation as regards such products.

However, since UPM has been preparing for entrance into application of the Regulation in the original schedule, UPM aims to begin application of the Regulation as soon as possible already during the transition period.

If you are sourcing products listed in Annex I of the Regulation from a UPM location outside of the EU and require data for you EUDR compliance, please contact our sales and customer service.
